1 **SECTION 107 - LEGAL RELATIONS AND RESPONSIBILITY TO PUBLIC**

2
3 Make the following amendments to said Section:

4
5 **(I)** Amend **Section 107.01 Insurance Requirements** from lines 5 to 81 to
6 read as follows:

7
8 **“(A) Obligation of Contractor.** Contractor shall not commence any
9 work until it obtains, at its own expense, all required insurance described
10 herein. Such insurance shall be provided by an insurance company
11 authorized by the laws of the State to issue such insurance in the State of
12 Hawaii. Coverage by a “Non-Admitted” carrier is permissible provided the
13 carrier has a Best’s Rating of “A-VII” or better. The Contractor shall
14 maintain and ensure all insurance policies are current for the full period of
15 the contract until final acceptance of the work by the State.

16
17 The Certificate of Insurance shall contain: a clause that it is agreed
18 that any insurance maintained by the State of Hawaii will apply in excess
19 of, and not contribute with, insurance provided by this policy; and shall be
20 accompanied by endorsement form CG2010 or equivalent naming the
21 State as an additional insured to the policy which status shall be
22 maintained for the full period of the contract until final acceptance of the
23 work by State.

24
25 The Contractor shall obtain all required insurance as part of the
26 contract price. Where there is a requirement for the State of Hawaii and
27 its officers and employees to be named as additional insureds under any
28 Contractor’s insurance policy, before the State of Hawaii issues the Notice
29 to Proceed, the Contractor shall obtain and submit to the Engineer a
30 Certificate of Insurance and a written policy endorsement that confirms the
31 State of Hawaii and its officers and employees are additional insureds for
32 the specific State project number and project title under such insurance
33 policies. The written policy endorsement must be issued by the insurance
34 company insuring the Contractor for the specified policy type or by an
35 agent of such insurance company who is vested with the authority to issue
36 a written policy endorsement. The insurer’s agent shall also submit
37 written confirmation of such authority to bind the insurer. Any delays in
38 the issuance of the Notice to Proceed attributed to the failure to obtain the
39 proof of the State of Hawaii and its officers and employees’ additional
40 insured status shall be charged to the Contractor.

41
42 A mere Certificate of Insurance issued by a broker who represents
43 the Contractor (but not the Contractor’s insurer), or by any other party who
44 is not authorized to contractually name the State as an additional insured
45 under the Contractor’s insurance policy, is not sufficient to meet the
46 Contractor’s insurance obligations.

Certificates shall contain a provision that coverages being certified will not be cancelled or materially changed without giving the Engineer at least thirty (30) days prior written notice. Contractor will immediately provide written notice to the Director should any of the insurance policies evidenced on its Certificate of Insurance form be cancelled, reduced in scope or coverage, or not renewed upon expiration. Should any policy be canceled before final acceptance of the work by the State, and the Contractor fails to immediately procure replacement insurance as specified, the State, in addition to all other remedies it may have for such breach, reserves the right to procure such insurance and deduct the cost thereof from any money due or to become due to the Contractor.

Nothing contained in these insurance requirements is to be construed as limiting the extent of Contractor's responsibility for payment of damages resulting from its operations under this contract, including the Contractor's obligation to pay liquidated damages, nor shall it affect the Contractor's separate and independent duty to defend, indemnify and hold the State harmless pursuant to other provisions of this contract. In no instance will the State's exercise of an option to occupy and use completed portions of the work relieve the Contractor of its obligation to maintain the required insurance until the date of final acceptance of the work.

All insurance described herein shall be primary and cover the insured for all work to be performed under the contract, all work performed incidental thereto or directly or indirectly connected therewith, including but not limited to traffic detour work, barricades, warnings, diversions, lane closures, and other work performed outside the work area and all change order work.

The Contractor shall, from time to time, furnish the Engineer, when requested, satisfactory proof of coverage of each type of insurance required covering the work. Failure to comply with the Engineer's request may result in suspension of the work, and shall be sufficient grounds to withhold future payments due the Contractor and to terminate the contract for Contractor's default.

(B) Types of Insurance. Contractor shall purchase and maintain insurance described below which shall provide coverage against claims arising out of the Contractor's operations under the contract, whether such operations be by the Contractor itself or by any subcontractor or by anyone directly or indirectly employed by any of them or by anyone for whose acts any of them may be liable.

92 (1) **Workers' Compensation.** The Contractor shall obtain
93 worker's compensation insurance for all persons whom they
94 employ in carrying out the work under this contract. This insurance
95 shall be in strict conformity with the requirements of the most
96 current and applicable State of Hawaii Worker's Compensation
97 Insurance laws in effect on the date of the execution of this contract
98 and as modified during the duration of the contract.
99

100 (2) **Auto Liability.** The Contractor shall obtain Auto Liability
101 Insurance covering all owned, non-owned and hired autos with a
102 Combined single Limit of not less than \$1,000,000 per occurrence
103 for bodily injury and property damage with the State of Hawaii
104 named as additional insured. Refer to SPECIAL CONDITIONS for
105 any additional requirements.
106

107 (3) **General Liability.** The Contractor shall obtain General
108 Liability insurance with a limit of not less than \$2,000,000 per
109 occurrence and in the Aggregates for each of the following:
110

111 (a) Products - Completed/Operations Aggregate,

112 (b) Personal & Advertising Injury, and

113 (c) Bodily Injury & Property Damage
114
115
116

117 The General Liability insurance shall include the State as an
118 Additional Insured. The required limit of insurance may be provided
119 by a single policy or with a combination of primary and excess
120 policies. Refer to SPECIAL CONDITIONS for any additional
121 requirements.
122

123 (4) **Builders Risk For All Work.** The Contractor shall take out
124 a policy of builder's risk insurance for the full replacement value of
125 the project work; from a company licensed or otherwise authorized
126 to do business in the State of Hawaii; naming the State as an
127 additional insured under each policy; and covering all work, labor,
128 and materials furnished by such Contractor and all its
129 subcontractors against loss by fire, windstorm, tsunamis,
130 earthquakes, lightning, explosion, other perils covered by the
131 standard Extended Coverage Endorsement, vandalism, and
132 malicious mischief. Refer to SPECIAL CONDITIONS for any
133 additional requirements."
134

135 (II) Amend **Section 107.03 Working Hours; Night Work.** By adding the
136 following after line 143:
137

138 “Night work will not be allowed during the seabird fallout season period
139 from September 15 to December 15.”
140

141 **(III) Add Section 107.18 Refuge Access and Safety Permit Stipulations**
142 **for Special Use Permit #12522-22-105 for TMK (4) 5-3-001:007 and Section**
143 **107.19 Construction Parcel Requirements** after line 745:
144

145 **“107.18 Refuge Access and Safety Permit Stipulations for Special Use**
146 **Permit #12522-22-105 for TMK (4) 5-3-001:007.** Contractor shall comply with
147 permit signed 12/16/21:
148

149 **(A)** When working in the Hanalei National Wildlife Refuge, Special Use
150 Permit #12522-22-105 applies. The permit has been included as part of the
151 Contract Documents. Some of the permit conditions are listed below, but the
152 Contractor shall comply with all conditions listed in the permit. Payment for
153 complying with the permit conditions shall be considered incidental to the various
154 contract items.
155

156 **(B)** Advanced coordination is required before the project begins and once
157 completed, the point of contact for the refuge will be Deputy Project Leader,
158 Brooke Burrows (cell: 808-635-0920)
159

160 **(C)** This permit must be kept on-hand during the project, along with all
161 necessary licenses.
162

163 **(D)** The Contractor bears the responsibility to repair any damages to the work
164 area and surrounding refuge infrastructure, which occur during the work being
165 authorized through this permit.
166

167 **(1)** Any damage will be corrected immediately at the cost of the
168 Contractor to whom the equipment belongs.
169

170 **(2)** A rock bollard or something similar will be placed by the
171 Contractor in front of the gate keypad to shield the keypad from any
172 further damage as a result of work in the permitted area.
173

174 **(E)** Prior to work beginning in the permitted area at Hanalei National Wildlife
175 Refuge, all machinery/equipment will be washed and cleaned of all mud and
176 foreign material to avoid introduction of invasive species.
177

178 **(1)** Power washing of all track/or tires is recommended to be done
179 prior to arrival to the refuge because water is not available onsite.
180

181 **(F)** All trash or other objects brought onto the refuge must be removed once
182 project is completed.
183

184 (1) Eating on the refuge is not allowed because food crumbs attract
185 rats and ants that prey on ground nesting birds. Please eat lunch off of
186 refuge property.

187
188 (G) Storing of fuel on refuge property is prohibited.

189
190 (1) In case of any fuel, oil or other leaks on refuge property, the
191 damage must be mitigated as soon as possible, and refuge deputy
192 project leader, Brooke Burrows (808-635-0922) must be immediately
193 informed.

194
195 (H) Taking of endangered species is prohibited. A 5-mph speed limit will be
196 adhered to in order to minimize disturbance. In the case that an endangered
197 species does not move out of way on its own accord then the hauling operation
198 must wait for the bird to move or a different route can be established. If any nest
199 are found or if there is any form of take of an endangered species, contact the
200 refuge biologist Kim Uyehara (cell: 808-635-9309).

201
202 (I) Safety is of paramount importance to the Kauai National Wildlife Refuge
203 Complex. All accidents or injuries should be reported to Deputy Project Leader
204 as soon as possible.

205
206 **107.19 Construction Parcel Requirements.** Construction Parcels C1, C2 and
207 C4 right-of-entries are incorporated into the Contract Documents.

208
209 Contractor shall comply with the following requirements for Construction
210 Parcel C2 within property TMK (4) 5-4-004:010:

215 (B) Coordinate with the owner for driveway access. Only limited
216 access thru the property driveway is allowed for collection and removal of
217 spoils that fall down the slope. The spoils shall be removed offsite to a
218 permitted disposal site.

219
220 (C) Vehicles shall back into or back out of the driveway. Vehicles are
221 not allowed to turn around off of the driveway. Vehicles and personnel are
