

**Department of Transportation  
COOPERATIVE PURCHASING AGREEMENT**

**TRAFFIC SIGNAL CONTROLLER INSTALLATION & ADAPTIVE TRAFFIC SIGNAL CONTROL  
TECHNOLOGY AT VARIOUS LOCATIONS, OAHU  
STP-0300(189)**

- I. PURPOSE of this Agreement is to provide government entities with the opportunity to participate in a multi-jurisdictional cooperative contract. It is a means by which government entities subject to HRS chapter 103D, may join together in order to achieve cost-effective and efficient acquisition of quality goods and services. Additional benefits of the cooperative procurements are the potential administrative and contract management savings of a single cooperative contract, rather than multiple contracts for various governmental entities.
- II. EFFECTIVE DATES OF THIS AGREEMENT shall remain in effect until the term of the contract, identified in Section V, has expired or been extended, or has been terminated for cause.
- III. SOLICITATION AND CONTRACT DEVELOPMENT/ADDITIONAL INFORMATION: The Department of Transportation/Highways Division is authorized by agreement of the participant to act as the procurement officer for this multi-jurisdictional cooperative solicitation, resulting in an indefinite quantities contract, pursuant to Chapter 103D, Hawaii Revised Statutes (HRS) and Chapter 3-128, Hawaii Administrative Rules (HAR) for the following goods and services described. Jurisdictions will only be allowed to join at the beginning of the contract.
- Procurement, configuration, and installation of up to approximately 600 traffic signal controllers.
  - Procurement, configuration, and installation of conflict monitor units.
  - Configuration and installation of local controller firmware.
  - Procurement, configuration, and installation of modem card to establish low-speed communication from the traffic signal controller connection to the existing copper cable twisted pair communication network at select intersections.
  - Furnishing an ethernet cable connection from the traffic signal controller to a nearby existing CCTV cabinet to establish a connection to the existing fiber optic communication network at select intersections.
  - Warranty and support for installed items.
- IV. TYPE OF CONTRACT: OPTIONAL  
Purchasing agencies of the jurisdiction named in Section VII are not required, but may use the resulting contract.
- V. TERM OF THE CONTRACT: Tentatively, the indefinite quantities contract is scheduled to be effective August 9, 2023, for a contract period of 1695 calendar days with an option to extend for 169 calendar days if appropriate.
- VI. POINT OF CONTACT INFORMATION: Provide contact information below for response to inquiries regarding this cooperative purchasing agreement or to the resulting indefinite quantities contract.

Name: City and County of Honolulu, Department of Budget and Fiscal Services, Division of Purchasing  
Phone Number: 808-768-5535  
E-Mail Address: [bfs purchasing@honolulu.gov](mailto:bfs purchasing@honolulu.gov)

- VII. PARTIES TO THIS AGREEMENT have affixed their signatures in execution of this Agreement.
