

Solicitation Q23003034 Question

QUESTION: Kindly provide the manufacturer name and part numbers of the items that will meet your requirements for the above subject.

RESPONSE:

We are looking at the following units and would like quotes for both:

- IDEMIA LiveScan System Desktop Tenprint (Fingerprint) [LSHID0M41E-01],
- IDEMIA LiveScan System Portable Tenprint (Fingerprint) [LSHIP0M41E-01],

Additionally, all vendors should be aware that as of right now it appears that the only LiveScan vendors that are compatible with the Hawaii Criminal Justice Data Center system is IDEMIA and Fieldprint. While the Department of Law Enforcement can purchase from any LiveScan vendor, any purchase from another vendor will include additional costs to ensure that the LiveScan is compatible with the Hawaii Criminal Justice Data Center system and will be taken into consideration for any applicable proposals.

Additionally, for consideration, a vendor must be on the FBI's list of approved vendors. You can find the list here, <https://fbibiospecs.fbi.gov/certifications-1/cpl>
