

**Questions for solicitation: Q23003173 Printing and Binding of the 2022 Hawaii
Senate Journal
06/23/2023**

1. Carol, Do you have an estimate on the number of pages yet? If the page amount stays as stated, we may need to look at a different paper due to the spine size for binding. Thanks, Mark

The estimated number of pages per volume is 2,276. Alternate paper type and weight will be considered if binding cannot be completed with the existing paper specifications.
