

Autonomous Recording Unit Solicitation

Autonomous Recording Units for Seabird Burrow Monitoring in Kaua‘i County

Description of Services

Approximate delivery time frame: October 2024

The State of Hawaii Department of Land and Natural Resources, Division of Forestry and Wildlife requests bids for a total of 45 wildlife audio recording units. Wildlife recording equipment should be same specifications as Wildlife Acoustics’ Song Meter SM4 and Mini 2 Li-ion autonomous recording units for bioacoustics monitoring with supplementary second microphone and batteries.

Line Item	Model	Quantity	Specifications
1	Song Meter SM4	5	Default specifications
2	Song Meter Mini 2 Li-ion	40	Default specifications with items 3 and 4 as accessories
3	Song Meter Mini 2 Li-ion Additional (Second) Microphone	40	One additional microphone for each unit
4	Song Meter Mini 2 Li-ion Batteries	240	Six lithium-ion batteries for each unit

Special Conditions

- a. The State accepts specifications of products listed in this solicitation. Any other products offered must equal or exceed specifications of these products.
- b. Vendor must bid on all Line Items to qualify for selection. However, the State reserves the rights to award this solicitation as a whole or Line Items separately.
- c. Vendor must be HCE compliant to qualify for selection and receive any payments.
- d. Unit price shall include all applicable fees, taxes, and delivery cost.
- e. The bid submitted shall include any other costs associated with this project.
