

**PRICE QUOTATION FORM**

Organization: \_\_\_\_\_ Solicitation No.: \_\_\_\_\_

**Instructions:** Bidders shall complete the table below outlining the cost to perform the services requested. **Bidders have the option of providing a cost for more than one island. Award(s) will be made to the lowest responsive, responsible Bidder per island.**

**The rate table shall be completed with the assumption that the Bidder will perform the below estimated number of pick-ups per island:**

<b>Location</b>	<b>Number of weekday pick-ups per month</b>	<b>Number of weekend pick-ups per month</b>
Region 1: Oahu (facilities to SLD)	7 per month	1 per month
Region 1: Oahu (NI shipments to HNL and delivery to SLD)	6 per month	3 per month
Region 2: Maui	2 per month	1 per month
Region 3: Hawaii	2 per month	1 per month
Region 4: Kauai	2 per month	1 per month

Weekend pick-ups may be required. Bidders shall enter their normal rate + \$50.00 for each weekend pick-up.

The following equation shall be used to determine the estimated Total Project Cost: (Weekday pick-up rate x Number of estimated weekday pick-ups year, per island) + (Weekend pick-up rate [weekday pick-up rate + \$50.00] x Number of estimated weekend pick-ups per year, per island) = Total Project Cost.

This is a supplemental form and shall be submitted with Bidders bid in HIePRO. If bidding on more than one region, only attach this form to **one** line item.

<b>Rate Table</b>			
<b>Description</b>	<b>Weekday Pick-up/Shipment Rate</b>	<b>Weekend Pick-up/Shipment Rate</b>	<b>Total Project Cost (based on estimated 7 months)</b>
Region 2: Specimen pick-up and shipment from <b>Maui</b> to <b>Oahu</b>	\$	\$	\$
