

FIBERGLASS SIGNPOSTS SPECIFICATIONS

Scope of Work:

Produce a total of 24 fiberglass signposts made from an 'ōhi'a post mold that measures 3 feet – 4 inches in length with a central core for mounting onto a metal pipe.

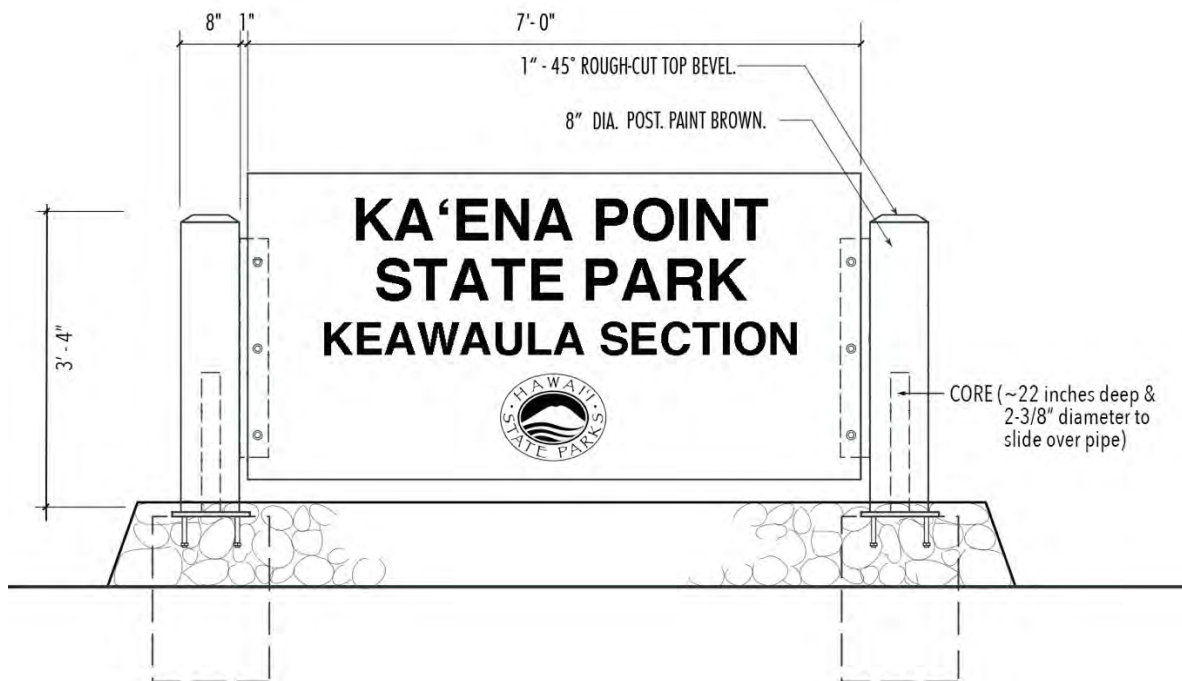

NOTE: This solicitation does not include any installation or hardware.

Specifications:

- 3 foot – 4 inch length
- 8 inch diameter with beveled edge on top end
- Core that measures 2-3/8 inch in diameter and 22 inches in length from the base.
- Paint with Heartwood brown latex paint

Delivery:

- Ship 12 posts to Hilo Harbor
- Deliver 12 posts to:
State Parks Ruger Baseyard
480 Makapuu Avenue
Honolulu, HI 96816

Typical State Parks sign design with signposts fabricated to slide onto metal pipes and rest on a rock base. Park name panel is mounted onto the posts.

State Parks name sign with fiberglass signposts installed.
