PROPOSAL

DELETE Proposal from Addendum No.1 in its entirety and REPLACE with the revised Proposal. The Proposal has been revised to remove (Hawaii Products Preference and/or Use of Hawaii Products) from applicability to this solicitation. Considerations from use and submittal of Act 175, SLH 2009, the Hawaii products preference is NOT applicable to this solicitation.

QUESTIONS and ANSWERS

1. **Please confirm if DLNR requires a field office for this project to be provided as part of the base bid (not included in allowance).** Previous answer has been revised to state the following:

*A field office may not be required for this project since it is a relatively small construction project. However, an Allowance of \$5,000 was already included in the base bid proposal section. Thus, ~~the contractor has~~ **DLNR will have** the option to include a field office or not. If the contractor would like to have a field office, there is an area designated on the plans for contractor use for operations that can include a field office.*
