

# HIEMA

## AMENDMENT #1

June 9, 2026

Siren Poles

Solicitation/ HIePRO #: Q26003163

This Amendment serves to document a revision to the Scope of Work dated May 28, 2026.

The original scope of work required the Vendors to submit a cost quote for seventeen (17) resin-fiberglass poles. The cost would include handling, general excise tax, freight, packing, and delivery. The original scope is herein amended to require the Vendor to provide HIEMA with a cost quote of **fifteen (15) resin-fiberglass poles.**

All other requirements, specifications, and conditions of the original Scope of Work remain unchanged. Please update your quotes and or resubmit the proposals by the due date as stated.

All proposals should include an itemized list of costs, including tax and shipping.

**Delivery of goods must be by flat-bed trucks and must be pre-arranged with the project contact or project manager. Specification requirements for delivery may be discussed prior to proposal submission to ensure your proposal is complete for the project.**

A corresponding cost adjustment shall be reflected as applicable and addressed in accordance with State procurement procedures.

For questions or clarification, please contact Karissa Grdjan at 808-441-5657 or [Karissa.l.grdjan@hawaii.gov](mailto:Karissa.l.grdjan@hawaii.gov), or the Project Manager, David Yamada, at 808-983-2518 or [David.m.yamada@hawaii.gov](mailto:David.m.yamada@hawaii.gov).
