CARPET EXTRACTOR**

Brief Description – Walk-behind carpet extractors feature various cleaning paths, solution tank capacities, and recovery tank capacities to best meet changing commercial cleaning needs.

- Battery Charger Type - Onboard Battery Charger
- Battery Chemistry - Wet Lead Acid
- Brush Motor Horsepower - 0.5 hp
- Brush Pressure – Maximum - 45 lb
- Brush Pressure Type - Adjustable
- Brush Speed – Maximum - 950 RPM
- Brush Speed – Minimum - 950 RPM
- Cleaning Path Width - 24 in
- Compatible Product Type - Carpet; Rug
- Deck Material - plastic
- Deck Style - Dual Counter Rotating
- Drive Type - Self-Propelled
- Features - Onboard Detergent-Dispensing System
- Handle Material - Plastic
- Horsepower - 1/2 hp
- Housing Material - plastic
- Includes Battery - Yes
- Includes Debris Hopper - Debris Hopper Not Included
- Machine Size - 24 in
- Machine Style - Walk Behind
- Machine Type - Walk-Behind
- Number of Batteries Included - 4
- Number of Wheels - 2
- Onboard Upholstery Tools - Onboard Upholstery Tools
- Overall Length - 56 in
- Overall Width - 27 in
- Pad Assisted - Yes
- Pad/Brush Size - 13-1/2 in
- Power Source - Battery
- Practical Productivity Area – Maximum - 10,800 sq ft
- Product Type - Carpet Extractor
- Pump Pressure – Maximum - 100 psi
- Pump Pressure – Minimum - 100 psi
- Recovery Tank Capacity - 16 gal
- Solution Flow - Fixed
- Solution Tank Capacity - 20 gal
- Sound Level - 69 dB
- Theoretical Productivity Area – Maximum - 10,800 sq ft
- Vacuum Motor Horsepower - 0.5 hp
- Voltage - 6V DC; 24V DC
