5.9 Scoring Process

The evaluation committee shall score proposals by reviewing the application for each of the evaluation criteria above.

Evaluators shall use a rating of 0 to 5 for each evaluation criteria. Rating is defined as follows:

- 0- The Proposal fails to address the criterion or cannot be assessed due to missing or incomplete information. Offeror has not demonstrated sufficient knowledge of the subject matter or has grossly failed to explain how the requirement(s) is met.
- 1- **Poor.** The criterion is inadequately addressed, Offeror demonstrates only a slight ability to comply, or there are serious inherent weaknesses.
- 2- **Fair.** The Proposal broadly addresses the criterion, but there are significant weaknesses. May have one or more deficiencies, or Offeror has not adequately explained how its services fit the requirement.
- 3- **Good.** The Proposal addresses the criterion well; meets the requirement. Demonstrates knowledge and understanding of the subject matter, with no deficiencies noted regarding technical approach.
- 4- **Very Good.** The Proposal addresses the criterion very well, highly comprehensive. No deficiencies noted.
- 5- **Excellent.** The Proposal successfully addresses all relevant aspects of the criterion. Excellent reply that goes beyond the requirements listed in the RFP to provide added value. In addition, the response may cover areas not originally addressed within the RFP and/or include additional information and recommendations that would prove both valuable and beneficial to the agency. The response includes a full, clear, detailed explanation of how the requirement(s) are met. No errors in technical writing.

The average of each evaluators' rating for each evaluation criteria shown in Table 1, shall be converted based on the following formula:

<u>Rate Achieved</u>	X	Points Possible For that Criteria	= Points
Total Rating Achievable			

Example:

<u>4 Very Good</u>	X	10	= 40
5			

<u>1 Poor</u>	X	10	= 10
----------------------	---	----	------

5.10 Notice of Award

After a final selection is made, the State will issue a notice of award on its electronic procurement system (HlePRO).

5.11 Debriefing

Pursuant to HAR §3-122-60, a non-selected Offeror may request a debriefing to understand the source selection decision and contract award.

A written request for debriefing shall be made within three (3) working days after the posting of the award of the contract. The Procurement Officer or designee shall hold the debriefing within seven (7) working days to the extent practicable from the receipt date of the written request.

A protest by the requestor following a debriefing shall be filed within five (5) working days, as specified in HAR §103D-303(h). See Special Provisions Section [X.X](#) Protest Procedures for submitting a protest.

Section 6: Evaluation Criteria

Evaluation Criteria 1: Management Approach

6.1 Management Approach Submittal

This section contains requirements pertaining to the offeror's management approach relating to this RFP. Offeror shall submit a narrative of a maximum of two (2) pages showing how they met or exceeded requirements of previous work, project examples, etc. To be submitted in size 12 font.

Management Approach can include sub-factors such as:

Sub-factor 1: Organization and Approach

The State will assess the degree to which the Offeror's proposed organization and approach for managing the program meet the requirements identified in the SOW (e.g., achieve schedule milestones, submit timely and accurate deliverables, and address risk).

This may include:

- Organizational Experience - demonstrating the following: Organizational capability, resources, and experience, maintenance, and operation. The Offeror shall explain

its prior experience providing the types of services requested by this RFP.

- Program management
- Staffing plan
- Subcontractor management
- Configuration management
- Data management to include cybersecurity considerations
- Quality assurance - Implementation of quality and cost controls, with effective project and financial tracking and reporting
- System implementation and transition(s) management

The State will assess the degree to which the Offeror's proposed performance management approach will meet the requirement to ensure high-quality services that meet the performance requirements for the contract including meaningful program metrics that depict, at a minimum, program cost, schedule, and performance attainment and describe plans for implementation and monitoring of those metrics.

Sub-factor 2: Key Personnel

The State will assess the degree to which the Offeror's proposed Key Personnel resumes meet defined labor category requirements with required or equivalent certifications aligned to their proposal and, the degree to which the approach for retaining Key Personnel will support successful and efficient execution of requirements.

Evaluation Criteria 2: Past Performance Examples

6.2 Past Performance Submittal

Offeror shall submit a maximum of five (5) pages describing and sharing examples of work in the past relating to this kind of coordination. Describe at least 2 major projects or contracts you worked on during the past five (5) years, on the same or similar projects. Explain the statement of work, duration, number of employees assigned to the project, and significant tasks that were completed.

Offeror shall complete Offer Form OF-X Client References, Attachment X with the names and contact information of references for at least two (2) clients that received services that are similar to those in the statement of work.

The State reserves the right to conduct reference checks beyond what was provided by references.

6.2.1 Past Performance Relevancy and Recency Ratings

The State will evaluate the Offeror's demonstrated record of contract performance in supplying services that meet users' needs, including price and schedule. The recency and relevancy of the information, the source of the information, the context of the data, and general trends in the Contractor's performance will be considered. More recent and more relevant performance usually has a greater impact on the confidence assessment than less recent and less relevant performance. The State will perform an independent determination of the relevancy of the data provided or obtained. A relevancy determination will be made in addition to the reference responses received. The State is not bound by the Offeror's opinion of relevancy. The following relevancy criteria apply and will be assigned to each effort identified in the Offeror's proposal on past performance.

PAST PERFORMANCE RELEVANCY RATING	
Rating	Definition
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires
Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

For purposes of this evaluation, recency is defined as active or completed efforts performed within the past five (5) years from the closing date of this solicitation. The more recent the effort the higher recency score it will receive, as follows:

PAST PERFORMANCE RECENCY RATING	
Rating	Definition
Very Recent	Completion of a service project within the last one (1)
Recent	Completion of a service project within the last two (2) to five (5) years
Not Recent	Completion of a service project more than five years ago.

6.2.2 Final Performance Rating

Once the evaluation has considered recency and relevancy, it is time to take those considerations and determine an overall rating for past performance in respect of whether the information reviewed will allow for successful performance of the current solicited requirements.

Rating	Description
6- High Confidence	Based on the offeror's performance record, the government has high confidence the offeror will successfully perform the required effort.
5- Significant Confidence	Based on the offeror's performance record, the government has significant confidence the offeror will successfully perform the required effort.
4- Satisfactory Confidence	Based on the offeror's performance record, the government has confidence the offeror will successfully perform the required effort. Normal contractor emphasis should preclude any problems.
*3- Unknown Confidence	No performance record is identifiable.
2- Little Confidence	Based on the offeror's performance record, substantial doubt exists that the offeror will successfully perform the required effort.
1- No Confidence	

* Given the number of mergers and acquisitions in today's American business environment, potential offerors may not have existed under their current name for very long. If the key management personnel, subcontractors, or other resources, have experience on contracts similar to the pending requirement for another contractor; state and local government contracts; private contracts; or was a major subcontractor; then the source selection team can perform the appropriate evaluation and risk assessment. This reduces the chance of needing to "neither reward nor penalize" an offeror with no other relevant past performance information.

If the contractor is truly a new entity and none of the company principals ever performed relevant work for others, the company is considered to have no past performance. In the case of an offeror with respect to which there is no information on past contract

performance or with respect to which information on past contract performance is not available, the offeror may not be evaluated favorably or unfavorably on the factor of past contract performance." Thus, the evaluator would, at the minimum, rate this offeror as unknown confidence, allowing for a pass rate of 50% (3/6).

Evaluation Criteria 4: Price

There are two subfactors to Price evaluation:

6.3 Subfactor 1 – Total Price Evaluation

The Offeror's price proposal is worth 20% of the total points, which is 20 points. Offerors shall enter the total sum price for one (1) year of services as the Unit Price in US Dollars and Cents when submitting their offer in HlePRO

6.3.1 Cost Points Conversion

In converting cost to points, the Lowest Total Cost will automatically receive the maximum number of points allocated to cost shown in Table 1 in Section 5.8. The point allocations for cost on the other Offers for each service category will be determined through the method set out in the following formula: [Lowest Total Cost multiplied by maximum points divided by [Offeror's Proposed Cost] = Cost Points Awarded.

For example, if the maximum points for the price are 30 of the total points and Offeror A submitted a price for \$200,000; Offeror B submitted a price of \$250,000; Offeror C submitted a price of \$300,000.

Offeror A would receive the maximum points based on the lowest offer of \$200,000.

Offeror B would not receive the maximum points based on the lowest offer of $\$200,000 \times 30 \text{ points} / \$250,000 = 24 \text{ points}$.

Offeror C would not receive the maximum points based on the lowest offer of $\$200,000 \times 30 \text{ points} / \$300,000 = 20 \text{ points}$.

6.4 Subfactor 2 –Price Reasonableness and Realism

6.4.1 Price Reasonableness

Prices shall be evaluated for competitiveness and reasonableness of price. The State may use any or all price analysis techniques and procedures to determine price reasonableness.

6.4.2 Cost Realism

The State may use any or all cost realism techniques and procedures to determine whether the estimated proposed cost elements are realistic for the work to be performed, reflect a clear understanding of the requirements, and are consistent with the unique methods of performance and materials described in the offeror's proposal.

Section 7: Contract Management

Focused attention to contract management considerations facilitates a positive working relationship between the government customer, procurement staff, and the contractor for the successful implementation of the contract award.

Should Offeror find defects and questionable or objectionable items in the RFP, Offeror shall notify the State in writing prior to the deadline for written questions as stated in the Section 1.3 Schedule and Significant Dates, as amended. This will allow the issuance of any necessary corrections and/or amendments to the RFP by addendum and mitigate reliance on a defective solicitation and exposure of proposal(s) upon which award could not be made.

8.5 Proposal Preparation

8.5.1 Offer Form OF-1

County surcharges on state general excise (GE) tax or Use tax may be visibly passed on but are not required. For more information on county surcharges and the max pass-on tax rate, please visit the Department of Taxation's website at <http://tax.hawaii.gov/geninfo/countysurcharge>.

The request shall be submitted with the submission of the Offer. The information or material asserted by the Offeror to be confidential to the Offeror shall be clearly marked and be submitted in or with the Offer in such manner as to be readily separable from the Offer (or remaining portion of the Offer) to facilitate public access to and inspection of the non-confidential portion of the Offer. 8.6.3 Pursuant to HAR §3-122-58, the State will consult with the Attorney General regarding an Offeror's request for confidentiality of part of its Offer. The Attorney General shall determine what portions of the request are confidential under Law and what portions are not, in accordance with HRS Chapter 92F. The State shall communicate the Attorney General's determination to the Offeror in writing. If the request for confidentiality is denied in whole or in part, the information or material deemed to be non-confidential shall be made available as public information unless the Offeror appeals pursuant to HRS § 92F-42(1).

8.7 Redaction by the State

If the State determines, pursuant to HRS §92F-13, that any information or material in an Offer, any written question or submission by a Prospective Offeror, an Offeror or a Contractor, any response to any question or submission from a Prospective Offeror, Offeror or Contractor, and/or any Contract document is not required to be disclosed, then the State shall segregate, or redact, or otherwise cause any such information or material to not be made available as public information.

Work will commence on the official commencement date specified on the Notice to Proceed.

8.10 Contract Execution

The successful Offeror receiving award shall enter into a formal written contract to be signed by the Contractor and returned within ten (10) working days.

No work is to be undertaken by the Contractor prior to the commencement date specified on the Notice to Proceed. The State of Hawaii is not liable for any work, contract, costs, expenses, loss of profits, or any damages whatsoever incurred by the Contractor prior to the official starting date.

If an option to extend is mutually agreed upon, the Contractor shall be required to execute a supplemental contract for the additional extension period.

8.11 Liability Insurance

The Contractor shall maintain in full force and effect during the life of this contract, liability and property damage insurance to protect the Contractor and his Subcontractors, if any, from claims for damages for personal injury, accidental death, and property damage which may arise from operations under this contract, whether such operations be by the Contractor or by Subcontractor or anyone directly or indirectly employed by either of them. If any Subcontractor is involved, the insurance policy or policies shall name the Subcontractor as additional insured.

As an alternative to the Contractor providing insurance to cover operations performed by a Subcontractor and naming the Subcontractor as additional insured, the Contractor may require the Subcontractor to provide its insurance, which meets the requirements herein. It is understood that a Subcontractor's insurance policy or policies are in addition to the Contractor's policy or policies.

The following minimum insurance coverage(s) and limit(s) shall be provided by the Contractor, including its Subcontractor(s) where appropriate.

<u>Coverage</u>	<u>Limits</u>
Commercial General Liability (Occurrence form)	\$1,000,000 per occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 per accident

Each insurance policy required by this contract (with the exception of the Professional Liability policy), including a Subcontractor's policy, shall contain the following clauses:

- A. "The State of Hawaii is added as an additional insured as respects to operations performed for the State of Hawaii."
- B. "It is agreed that any insurance maintained by the State of Hawaii will apply in excess of, and not contribute with, insurance provided by this policy."

A Waiver of Subrogation shall apply to the General Liability, Automobile Liability, and Worker's Compensation insurance policies and shall be in favor of the State of Hawaii.

Prior to award, the Contractor agrees to deposit with the State of Hawaii certificate(s) of insurance necessary to satisfy the State that the insurance provisions of this RFP have been complied with and to keep such insurance in effect and the certificate(s) therefore on deposit with the State during the entire term of the price list and price list extensions, if any, including those of its Subcontractor(s), where appropriate. Upon request by the State, Contractor shall be responsible for furnishing a copy of the policy or policies.

Failure of the Contractor to provide and keep in force such insurance shall be regarded as material default, entitling the State to exercise any or all of the remedies provided in the contract and this RFP for default by the Contractor.

The procuring of such required insurance shall not be construed to limit the Contractor's liability hereunder nor to fulfill the indemnification provisions and requirements of this RFP. Notwithstanding said policy or policies of insurance, the Contractor shall be obliged for the full and total amount of any damage, injury, or loss caused by negligence or neglect connected with this price list.

8.12 Contract Invalidation

If any provision of this contract is found to be invalid, such invalidation will not be

construed to invalidate the entire contract.

8.13 Mistakes in Proposals

8.13.1 Mistakes shall not be corrected after awarding of the contract.

8.13.2 When the Procurement Officer knows or has reason to conclude before award that a mistake has been made, the Procurement Officer may request the offeror to confirm the proposal. If the Offeror alleges a mistake, the proposal may be corrected or withdrawn pursuant to this section.

8.13.3 If discussions are not held, or if the best and final offers upon which award will be made have been received, mistakes shall be corrected to the intended correct offer whenever the mistake and the intended correct offer are clearly evident on the face of the proposal, in which event the proposal may not be withdrawn.

8.13.4 If discussions are not held, or if the best and final offers upon which award will be made have been received, an Offeror alleging a material mistake of fact which makes a proposal non-responsive may be permitted to withdraw the proposal before award if the mistake is clearly evident on the face of the proposal but the intended correct offer is not, or the Offeror submits evidence which clearly and convincingly demonstrates that a mistake was made.

Technical irregularities are matters of form rather than substance evident from the proposal document, or insignificant mistakes that can be waived or corrected without prejudice to other Offerors; that is when there is no effect on the price, quality, or quantity. If discussions are not held or if the best and final offers upon which award will be made have been received, the Procurement Officer may waive such irregularities or allow an Offeror to correct them if either is in the best interest of the State. Examples include the failure of an Offeror to return the number of signed proposals required by the request for proposals; sign the proposal, but only if the unsigned proposal is accompanied by other material indicating the Offeror's intent to be bound, or to acknowledge receipt of an amendment to the request for proposal, but only if it is clear from the proposal that the Offeror received the amendment and intended to be bound by its terms; or the amendment involved had no effect on the price, quality or quantity.

8.14 Modification Prior to Submittal Deadline or Withdrawal of Offers

8.14.1 The Offeror may modify or withdraw a proposal before the proposal due date and time.

8.14.2 Any change, addition, deletion of attachment(s), or data entry of an Offer may be made prior to the deadline for submittal of offers.

8.15 Contract Changes – Unanticipated Amendments

During the course of the contract, the Contractor may be required to perform additional work which shall be within the general scope of the initial contract. When additional work is required, the Contract Administrator will provide the Contractor a written description of the additional work and request the Contractor to submit a firm time schedule for accomplishing the additional work and a firm price for the additional work.
