

The State of Hawaii, Department of Land and Natural Resources, Division of Forestry and Wildlife is seeking a qualified bidder to provide a quote for 3,080 linear feet of 14-inch-wide, 18-gauge galvanized sheet metal, fabricated into a half-circle profile with a small flange. Note that a portion of the material will need to be delivered to locations on three different islands. Specifications and amounts are listed below.

Detailed specification:

14-inch-wide, 18-gauge galvanized sheet metal formed into a half-circle with an 8-inch diameter and a 1.5-inch unbent flange, as shown in Figure 1. The half-circle diameter and/or flange length may be slightly larger than specified to accommodate standard material sizes; however, neither dimension may be smaller than specified.

Individual sections shall be a minimum of 8 feet and a maximum of 12 feet in length. Section ends shall be straight and square.
