PART II: RESPONSE TO QUESTIONS SUBMITTED

The following questions and responses are hereby provided and incorporated into IFB D27-055:

Q1: What specific criteria constitute a "correction" versus a change in scope or a new requirement?
A1: If it is anything that does not meet the requirements or specifications, it would need to be fixed and/or corrected.

Q2: Is a correction strictly limited to rectifying objective non-compliance or deviations from the stated Contract requirements?
A2: Yes.

Q3: Is the determination of a required correction made solely at the discretion of the Contract Administrator or designee?
A3: Yes.

Q4: If comments or requested edits during the draft review introduce new preferences, stylistic changes, or requirements not explicitly detailed in Specifications, 2. Scope of Work, Sections 2.1.1 through 2.1.7, will those be treated as contract modifications and/or change orders rather than uncompensated corrections?

A4: Please refer to Specifications, 2. Scope of Work, Section 2.1. Scope.

Q5: What is the established process or mechanism if the CONTRACTOR and the STATE disagree on whether a requested revision constitutes a baseline contract correction or an out-of-scope request?

A5: It would need to be discussed further culminating with agreement for approval by the STATE.
