Questions for solicitation

IFB No. 27-02-ASO (B27000484)

12th and 13th Floor Carpet Tile Replacement
10/26/2026

1. **Will there be a jobsite visit to inspect the carpet tile area?**

As specified in the IFB, the date earmarked for site visits was October 15, 2026.

2. **Regarding the recent addendum, has the existing flooring and adhesive been tested and who would arrange and pay for testing or abatement if needed?**

Please refer to Addendum 2, which provides the State's "Departmental Asbestos Plan – Building Inventory" (Asbestos Plan). With respect to Asbestos Containing Materials (ACM), the Asbestos Plan indicates "No." The State is not aware of any ACM located in the project area. However, regardless of prior findings, the awarded contractor shall maintain its duty to keep its workers safe and should conduct its own testing if suspect materials are encountered.
